PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience building web applications using Angular, React.js, Next.js, Node.js, Python, Firebase, and AWS. Experienced in developing healthcare applications, REST APIs, backend workflows, analytics integrations, and user-facing features. Comfortable learning new technologies and using AI-assisted development tools alongside testing, debugging, and code review.

PROFESSIONAL EXPERIENCE

Graduate Engineer | Full-Stack Developer

Jul 2026 – Present

Neeramoy Digital Services Ltd.

Dhaka, Bangladesh

- Develop and maintain healthcare web applications using Angular, Python, Firebase Cloud Functions, and REST APIs in an Agile environment, contributing across full-stack features, debugging, code reviews, and technical discussions.
- Implemented Firebase Cloud Messaging (FCM) push notification workflows and architected Google Analytics 4 (GA4) integration, including technical documentation for consistent user behavior tracking and analysis.
- Led the implementation and management of a healthcare microsite project from development through delivery, coordinating technical work, maintaining project documentation, and supporting ongoing improvements.

Software Engineer Intern

Apr 2026 – Jun 2026

Neeramoy Digital Services Ltd.

Dhaka, Bangladesh

- Contributed to healthcare application development using Python, Firebase Cloud Functions, AWS services, and REST APIs.
- Worked on backend workflows and integrations supporting healthcare features while collaborating with senior engineers on development and debugging.

Projects

Python Learning Platform | *Next.js, TypeScript, Supabase, Prisma, PostgreSQL, Python* | 🌐 codewithfarhan.vercel.app

- Built a full-stack Python learning platform with role-based Admin, Teacher, and Student dashboards for courses, lessons, coding homework, progress tracking, and user management.
- Implemented a Monaco-based Python coding environment with code execution, visible and hidden test cases, automated grading, and submission history.
- Implemented server-side authorization and backend workflows using Next.js, Prisma, and Supabase.

Academic Journal Publish Website | *Next.js, MongoDB, TypeScript, Node.js, SCSS* | 🌐 <https://gjadt.vercel.app/>

- Built a full-stack academic journal platform supporting the complete workflow from manuscript submission and peer review to editorial decision, copyediting, and publication.
- Integrated Google OAuth with role-based access and multi-level editorial control for authors, reviewers, editors, copy editors, and administrators.
- Implemented real-time manuscript tracking, email notifications, and manual payment processing through bank transfer.

AI E-Commerce Chatbot (Shoes) | *Next.js, MongoDB, TypeScript, SCSS, Gemini 3.5 Flash-Lite* | 🌐 shoe-bay247.vercel.app

- Built a conversational e-commerce platform combining product browsing with an AI shopping assistant for search, recommendations, cart operations, and checkout.
- Integrated a Google Gemini 3.5 Flash-Lite powered chatbot with natural language product search, cart management, and checkout actions.
- Implemented secure authentication, persistent cart management, profile-based address validation, order tracking, and per-user chat history.

ACADEMIC THESIS

A Deep Learning Approach of Translating Speech into 3D Hand Sign Language (ASL)

Jan 2025

- Proposed a deep learning pipeline to convert speech into 3D ASL animation using speech-to-text, gloss translation, keypoint mapping, and sequence modeling trained on the How2Sign dataset.
- Utilized Whisper, BART, MarianMT, OpenPifPaf, RTMPose3D, ResNet50, MediaPipe, and LSTM for speech processing, translation, pose estimation, and 3D hand sign generation.
- Reference: [arXiv:2507.06530](https://arxiv.org/abs/2507.06530)

TECHNICAL SKILLS

- **Languages:** Python, JavaScript, TypeScript, C, HTML5, CSS3
- **Frontend:** Angular, React.js, Next.js, React Native, Tailwind CSS
- **Backend:** Node.js, Express.js, Firebase Cloud Functions, REST APIs
- **Cloud & Databases:** AWS, DynamoDB, Firebase, PostgreSQL, MongoDB, Firestore, MySQL
- **Tools:** Prisma, Git, GitHub, Docker(basics), Postman
- **AI Tools:** GitHub Copilot, Cursor, ChatGPT, Claude Code, Antigravity
- **Communication:** English (Professional), Bangla (Native)

EDUCATION

BRAC University

Jun 2021 – May 2025

B.Sc. in Computer Science and Engineering

Dhaka, Bangladesh

- Relevant Coursework: Data Structures & Algorithms, Software Engineering, Object-Oriented Programming, System Analysis & Design, Database Systems, Computer Networks, Natural Language Processing, Blockchain and Cryptocurrencies .

Bogra Cantonment Public School and College

2019

Higher Secondary Certificate (HSC), GPA: 5.00/5.00 – Group: Science

Bogra, Bangladesh

EXTRACURRICULAR ACTIVITIES

Capture The Flag (CTF) Competitions

Cybersecurity Competitions

- Ranked 8th in the final round of BUET CTF 2024, organized by BUET Cybersecurity Club.
- Secured 5th place in the final round of EWU CTF 2024, hosted by East West University Robotics Club.
